SUMMARY

Computer Science undergraduate with hands-on project experience building Java, Python, and MySQL applications, complemented by virtual internship exposure to AWS cloud services, full-stack development, and cybersecurity. Strong foundation in data structures, database design, and object-oriented programming; seeking a Software Engineering / Full Stack Developer internship to apply and grow these skills.

EDUCATION

PR Pote Patil College of Engineering and Management

Bachelor of Technology in Computer Science Engineering

Amravati, Maharashtra

Aug 2023 – May 2027

EXPERIENCE

AWS Cloud Virtual Internship

2023

Amazon Web Services (Virtual)

- Completed a hands-on virtual internship gaining practical exposure to core AWS cloud services, including compute, storage, and deployment fundamentals.

Java Full Stack Developer Virtual Internship

2025

- Built practical full-stack development skills covering Java-based backend development and front-end integration.

Python Full Stack Developer Virtual Internship

2025

- Gained applied experience across the Python full-stack development lifecycle, from backend logic to front-end integration.

PROJECTS

Smart Campus Navigation System / Python

2026

- Engineered a graph-based campus navigation system in Python that computes the shortest path between campus locations using pathfinding algorithms.
- Designed an intuitive location-search interface, improving wayfinding efficiency for students and campus visitors.

Daily Expense Tracker / Java, MySQL

2025

- Developed a Java desktop application backed by a MySQL database to record, categorize, and monitor daily personal expenses.
- Implemented full CRUD (Create, Read, Update, Delete) functionality for expense entries, enabling reliable data management.

Student Management System / Java, MySQL

2025

- Designed and implemented a database-driven Java application to manage student records, attendance, and academic details.
- Structured a normalized MySQL schema to support efficient storage and retrieval of student data.

SKILLS & CERTIFICATIONS

- Languages:** C, Java, Python, SQL
- Web Technologies:** HTML, CSS, Spring Boot
- Databases:** MySQL, JDBC
- Developer Tools:** Eclipse, MySQL Workbench, Git, VS Code
- Certifications:** AWS Cloud Virtual Internship; Java Full Stack Developer Virtual Internship; Python Full Stack Developer Virtual Internship; Zero Trust Cloud Security Virtual Internship; Cybersecurity Virtual Internship; NPTEL – Programming in Java; Introduction to Cyber Security (SimpliLearn)
- Soft Skills:** Teamwork, Problem Solving, Leadership, Adaptability, Quick Learning Ability

ACHIEVEMENTS

- AWS Cloud Virtual Internship (2024):** Gained hands-on exposure to core AWS cloud services including compute, storage, and deployment.
- Java & Python Full Stack Developer Virtual Internships (2025):** Built practical full-stack development experience across both backend and front-end integration.
- Zero Trust Cloud Security & Cybersecurity Virtual Internships (2026):** Built practical knowledge of Zero Trust security architecture, threat detection, and vulnerability assessment.
- NPTEL Certification – Programming in Java:** Strengthened core Java and object-oriented programming fundamentals.
- Introduction to Cyber Security (SimpliLearn):** Completed certification covering foundational cybersecurity concepts.
